EXPERIENCE

2023 – 2025
SOFTWARE DEVELOPER – Flowplace

Leipzig, Germany

- Built full-stack SaaS features using TypeScript, Vue/Nuxt, Node.js and REST APIs.
- Implemented AI-assisted role summarization by integrating LLM APIs into product workflows.
- Contributed to the launch of Role Compass talent profiles, supporting 5,000+ users in the first month.
- Tested user flows, validated edge cases and supported production bug fixes.
- Collaborated with product/design to turn ambiguous requirements into shipped features.

2022 – 2023
SOFTWARE DEVELOPER – LeanERA GmbH

Leipzig, Germany

- Developed frontend applications with Vue 3, Nuxt 3 and TypeScript.
- Built mobile features with React Native for iOS and Android.
- Worked across two agile teams, aligning implementation with product and release priorities.
- Built a prototype sports platform for handball statistics and news.

2021 – 2022
WEB DEVELOPER – ARI Motors GmbH

Leipzig, Germany

- Designed and launched an electric vehicle comparison platform.
- Built full-stack functionality focused on performance, SEO and responsive UX.
- Delivered the production system from concept to launch in under 3 months.

2017 – 2019
DIGITAL PRODUCT & WEB COORDINATOR – Myfxbook Ltd (Cashdo)

Ashqelon, Israel

- Managed website and product operations for a cashback platform.
- Coordinated feature development and white-label partner integrations.

EDUCATION

2026 – Present
AI AGENTS & AUTOMATIONS – WBS CODING SCHOOL

Online

Training in LLMs, AI agents, n8n, Make, Python automations, APIs/webhooks and AI safety.

2020 – 2021
WEB & SOFTWARE DEVELOPMENT – Digital Career Institute (DCI)

Leipzig, Germany

Training in modern web development and JavaScript frameworks.

PROJECTS

MindQLab - Experimental platform for structured self-reflection, cognitive exercises and AI-assisted workflows.
